

Elvis Moraa

Nairobi, Kenya
Juja
(+254)798 092747
elvismoraa2@gmail.com

Largely self taught full stack software developer. I have good confidence in what I know and never wanna miss out on an Opportunity to learn new things.

Currently learning,

Machine learning algorithms, particularly interested in Gradient boosting and tree algorithms.

What I use,

NodeJs : Express, MVC & Dependency Injection
MongoDB : Mongoose
Angular : NGXS, Angular Material
Flutter : RXDART
Python : Flask
Docker , K8s and Google Cloud platform

What I'm really good at,

Building scalable code infrastructure in Node.js . If you want it done in JS or TS i can do it.

Something you should know about me,

I've worked mostly remotely and I do by far prefer it though appearing physically isn't out of the equation.
I enjoy solving complex problems innovatively
